

Working Spaniel Puppy Sales Agreement

We make great effort to produce healthy, genetically sound pups with a keen interest in birds and rabbits but, if for a genetic reason your puppy is unsatisfactory in the areas of physical health or natural ability, the following agreement is in effect to avoid misunderstandings and to ensure fairness to our clients as well as to ourselves. While we have done our best to see that our breeding stock does not have any of the below mentioned problems at the time of sale, we cannot promise that problems will not occur in our puppies as we have no control over natural selection. We offer these remedies should one be necessary.

If upon arrival your puppy is not as it was represented by us in the areas of physical description, personality or ability, it may be returned to us within fourteen (14) days from date of arrival for a refund or replacement from the next available litter. This only covers puppies that are shipped. You have seven (7) days from the date of purchase in which to have your veterinarian examine your pup for any health problems. If there is a problem that cannot be rectified, you may return the puppy to us within seven (7) days following the exam with a veterinarian's statement for money back refund or a replacement puppy. Return of the puppy is the responsibility of the buyer. The breeder accepts no responsibility for the veterinarian expenses after the puppy leaves the breeder's care. If we do not hear from you within seven (7) days, we will assume that you are satisfied and that the pup is in good health. A replacement puppy would be reserved from the next available litter should you desire one.

If your dog develops any of the following conditions your money will be refunded or the dog in question shall be replaced by the breeder with another puppy of equal value and similar quality upon return of the original dog. The replacement will be reserved from the next available litter. The replacement shall be supplied free of all charges except shipping. In the event that the buyer makes a claim for a refund or replacement puppy due to a physical defect, the breeder reserves the right to have our veterinarian examine any x-rays or test results. The breeder may also request that the dog be returned and evaluated by our veterinarian.

If, before the age of thirteen (13) months it is determined that the dog lacks the natural ability for hunting, or has limited interest in hunting, or is un-trainable, or shows unstable or vicious temperament, or has developed a serious genetic or congenital defect, your money will be refunded or a replacement puppy provided from the next available litter. If, before the age of twenty-seven (27) months, the dog develops: hip dysplasia, as evaluated by the Orthopedic Foundation for Animals or PENNhip, or Progressive Retinal Atrophy and/or Congenital Cataract, as certified by an ACVO Diplomate veterinary ophthalmologist, your money will be refunded or a replacement puppy provided from the next available litter.

The buyer has several responsibilities for the terms of this guarantee to remain in effect:

- 1) The breeder must be notified within fifteen (15) days of diagnosis of hip dysplasia, progressive retinal atrophy, congenital cataract or other defect that would be considered serious.
- 2) The dog must be returned to the breeder within thirty (30) days after the breeder is notified of defect.
- 3) All shipping expenses are the responsibility of the buyer.
- 4) Buyers are responsible for all of their own veterinary fees.
- 5) The dog must be registered with the Working Spaniel prefix.
- 6) The installed micro-chip must be registered into owner's name.

This replacement agreement does not cover dogs that are as follows:

- 1) Any dog or bitch that has been spayed or neutered prior to the age of 20 months
- 2) Any dog that has been bred or used for breeding prior to claim.
- 3) Any dog that has transferred ownership from the original purchasing party.
- 4) Any dog that has died or has been injured due to an accident.
- 5) Any dog that has been abused or neglected.
- 6) Any dog that has been made to be man-shy or gun-shy.
- 7) Any dog whose vaccinations are not kept current. The dog's vaccination records must be supplied for the breeder's review if they are requested.

Working Spaniel Puppy Sales Agreement

Claim for replacement or refund shall be in writing and shall be accompanied by the following:

- 1) Original A.K.C. Registration Certificate with ownership signed back to the breeder.
- 2) Veterinary certificate of hip or eye defect or other serious defect as earlier described.

This claim must be submitted to the breeder with all required documents and the affected dog returned within thirty (30) days after the breeder is notified of the defect. If the buyer wishes to keep said animal as a hunting dog and/or companion regardless of condition that is the owner's option. A full refund or replacement pup will not be given in such cases. Spaying or neutering such an animal is advisable and Working Spaniel Kennel will refund the amount of \$50.00 to help pay for incurred fees provided that a valid receipt from a licensed veterinary clinic can be obtained by the breeder to show that the appropriate procedure was performed on the animal in question. Both the buyer and the breeder have read this agreement and understand and agree to the conditions named therein.

WE CARE ABOUT YOUR PUPPY:

We understand that people's lives can and do change from time to time. Marriage, housing conditions, financial affairs or health issues may create a situation where it becomes impossible for you to keep and care for your puppy. Should you or your family ever be required to make a decision to place, give away or otherwise find it impossible to keep your pup, Working Spaniel Kennel can help. We will not allow one of our pups to be without a home for any reason. You are instructed to contact us and we will help you make arrangements for the pup to be returned here to our home so that it may be placed in another caring home or possibly spend its lifetime here with us. We never stop caring about our spaniels!
